

# CheXpress™

## Fast, Affordable, Quiet, and Quality. Say Hello to Your New Employee of the Year.

Small business is the lifeblood of our U.S. economy. When small business stops, our economy is crippled. So, why make that entrepreneur stop his or her business each day to go to the bank deposit their checks?

Digital Check has the solution in our new CheXpress small business check scanner. Built with the same quality, dependability, image clarity, and MICR accuracy as each of the other Digital Check scanners, the CheXpress was designed with the small business person in mind.

### Unique features include:

- One of the smallest footprints in the class
- Fastest scan times in class (< 1 second - straight thru, < 2 seconds - return mode)
- Best Read Image® for highest image quality
- Best Read MICR® for magnetic and OCR MICR reading accuracy
- Dual 300 dpi CCD scan heads
- Bi-tonal, gray scale, and color scanning
- Scan & return mode, or straight pass through for flexibility and placement
- Small footprint, for space savings
- 50% less power consumption than current models (CEC IV) - "Green" friendly
- Auto-start & auto shutoff for power savings
- FCC Class B - for residential small business use
